Each Riding Club meeting will include a devotional; a camp style challenge that will encourage the students to learn and grow in their knowledge of and relationship with Jesus Christ.

## Facilities

Dallas Valley Ranch Camp is located 5 minutes from Lumsden and 15 minutes from Regina. We have a heated indoor riding arena with nice stopping ground as well as a mechanical cow, outdoor arenas and trails.

**Students may bring their own horses to clubs, but we will not be boarding horses at our facility.**

## Riding Levels 1-12 (on request)

Riding levels are designed to challenge riders in their knowledge and skills while giving them something to work towards. Students will be awarded certificates upon completion of each level as they learn and build the following skills:

- Horse care and safety
- Horse handling skills
- Riding skills
- Various horse disciplines

- Equine terminology
- Fun group horse games

The students will accomplish this through practical riding lessons on horseback, completion of an information booklet and a written exam. They may also have chances to attend other equine functions with their group to see where their skills could take them in the future.
